

InnovationIsrael Financial Aid Request

InnovationIsrael would like to be inclusive of all qualified students. However, we are at the inception of the program and have very limited funds. For that reason, we work hard to get donations to help those students who truly need them.

If you would like to apply to InnovationIsrael 2007 and need Financial Aid please follow these steps:

- a- The cost of InnovationIsrael is \$ 4,000 plus approximately \$ 1,300 for airfare. Please write to info@innovationisrael.org attention of Monica Cooper and state what portion of this cost you need help with.
- b- If you are currently receiving financial aid for your education from an institution, please request from that institution a letter stating so, and send it to InnovationIsrael's mailbox. Instead of asking for your previous tax statements, we are relying on the judgment of previous organizations to which you have applied. For that reason, this letter is very important to help obtain financial aid for our program.
- c- Please send a short letter requesting financial aid and explaining your request. This should be emailed to info@innovationisrael.org c/o Monica Cooper
- d- Have your application AND letters of recommendation sent as early as possible. The qualifications of a student are necessary for obtaining financial aid.
